Current employment

- Web Developer at "Act Digital" Serbia doo, Belgrade (May 2022 - current):
 - o Independent development, integration, and implementation of new programs, as well as maintenance of existing ones, using Zend + Ext JS, Laravel + Vue JS and Symfony + JS.
 - o I was part of the outsourcing team for [Webedia Group](#), working on a wide network of multi-local leading websites, social pages and communities, specialising in the entertainment and recreation industries.

Previous work experience

- Drupal Developer at "Fermicoding" (Apr - Nov 2021)
 - o Project maintenance, upgrading existing and adding new functionalities - Drupal 8 multi-site including a web presentation with online sales and an admin section (as a subdomain - intranet): <https://www.regarden.com>
- Drupal Developer at "Pronovix" (Apr - Oct 2021)
 - o Part-time contract of service; worked on projects based on Pronovix's product created with Drupal (a web portal that provides structured documentation to productize client APIs and provides a searchable catalog of client API products).
- IT Manager and System Administrator at the Faculty of Law, Novi Sad (Feb 2018 – Feb 2020)
Complete information system maintenance. Responsible for the following:
 - o Windows servers: Windows domain (domain controller with associated services), Windows Exchange
 - o Linux servers: Ubuntu (web server with websites – Drupal, Joomla, Wordpress)
 - o VMware (ESXi), Hyper-V

- o Creation and maintenance of the faculty website through CMS, updating the content of the website, migration of the website from external hosting to the faculty server
 - o Maintaining network equipment, printers, client computers, sound systems, projectors; implementing antivirus protection (KAV); help desk - customer support
- Web Developer at “CloudTech“ - PHP Developer (Dec 2015 – Feb 2018)
During my time here, I gained experience with Zend and Symfony frameworks, Backbone framework, Twig templates, MySql Workbench, Apache and Nginx web servers, Vagrant, Git (command line, SmartGit), and Redmine. My work included:
 - o Maintaining a website with presentation, online sales and an admin section, built on Zend 1 framework and Backbone JavaScript framework.
 - o Building a new project based on the Symfony framework: <https://www.alexandar-cosmetics.com>
- IT Manager at “BB Trade“ AD (Jun 2011 – May 2015)
Service of IT Sector, assisting users in sales, administration, marketing, and retail stores. Worked on the implementation of an information system that was in constant development; finding, recording and helping to fix bugs. Managed the team, maintained POS-related network equipment, and trained new IT administrators. Coordinated with external partners and consulting companies to provide maintenance and consulting services for the IT system, including server systems, network equipment, ERP and POS system development and upkeep, as well as fiscal equipment maintenance.
Created SQL queries for the production database to present and update data not included in reports or ERP system functionalities.
- System Administrator: “Frikom” AD, Padinska Skela (Aug 2007 – May 2011)
IT services with responsibilities including ensuring system operation and technical support, equipment maintenance, monitoring and performance tuning of the information system, securing data access, managing user access, overseeing regular backups and data restoration, maintaining the communication system, handling break-fix tasks for computer communication systems, analyzing and developing the system to align with enterprise functions, and ensuring data integrity within the scope of responsibility.
In addition to these responsibilities, I also managed a team overseeing the technical operation and maintenance of the system. When needed, I acted as the deputy manager.
- Help Desk at “Rodić M&B Invest” doo, Novi Sad (Jun 2006 – Aug 2007)
I worked in Help Desk and System Administrator roles, maintaining the existing and implementing a new Active Directory domain. I also managed SQL Server administration, including backup configuration and maintenance.
- Help Desk at “Rodić M&B-CO” doo, Kula (Dec 2005 – Jun 2006)
Provided customer service through Help Desk in the IT sector, including installation and maintenance of software at the user level. Implemented antivirus and security policies for users.

Education

- 1995 - 1999, High School of Electrical Engineering. Graduate in Electrical Drives.
- 1999 - 2005, Technical Faculty "Mihajlo Pupin" Zrenjanin, University of Novi Sad. Bachelor of Computer Science (Professor of Computer Science).
